

WHAT'S IN THE BOX?

- (2) KIDZLOCK MAGNETIC KNOBS (black)
- (1) ASSEMBLED MAGNETIC MECHANISM (this is a 3" long clear tube with a long magnet inside that gets inserted in the door edge after the hole is drilled. The brown removable **Kidzbolt** is also in the tube.
- (1) JAMB SLEEVE (this is a 1/2" long brown tube to be inserted into the shallow hole drilled in the door jamb to receive **Kidzbolt**)
- (2) STICKY BACKED KNOB HOLDERS (use at your option for storing magnetic knob(s) most anywhere if you don't want to leave the knob on the door)
- (2) CLEAR SURFACE PROTECTORS (to be used at your option. Generally not necessary)
- (1) TUBE OF GLUE (included just in case the Magnetic Mechanism tube is loose in the hole you drilled in door edge. Glue generally not needed)
- (1) BLUE CHALK (to mark end of **Kidzbolt** during installation)
- (1) PIECE OF BLACK 1" SQUARE 2-SIDED TAPE (stick on door jamb to enhance chalk image transfer from **Kidzbolt** to door jamb during installation)
- (1) BAG OF 4 SCREWS AND RED, GREEN, OR BLACK STICKERS (to be used at your option in conjunction with knob holders)
